

## **A Curse is Broken and a Woman Walks**

In Proverbs 17:19 it says “He who returns evil for good gets a curse on him.” The reality is that if you do evil to a person who does good to you then a curse will be released. Another one is in Mark 11:12-14, 21&22. This is Jesus cursing the fig tree. In this case he cursed the fig tree but the effect wasn’t visible for a day. People think that because they say a curse but the problem isn’t immediately apparent then it has no effect. It does have an effect, whether you see it in a moment or over ten years. The effect WILL happen to people.

One time when I was down in Mexico I prayed for a lady with a physical condition. The one thing the Lord told me was that her brothers and sisters cursed her from the age of three on. She was almost completely crippled and we had to walk through and have her forgive her brothers and sisters. I had to break the power of the curse on her and when I did the Lord completely healed her. She took her walker and threw it aside and the Lord healed her right on the spot. I was just amazed that a miracle could actually happen.

You know how many times she had been prayed for in the church and did not get healed? There was a root cause of why that was happening. When you’re dealing with people emotionally, spiritually, or physically and there’s not a breakthrough then you need to start digging deeper and going over more tracks in that person’s life. There is a reason why that is still there. Do you know why the church is so confused about healing? We can’t figure out why God says He’ll heal people and then they’re not getting healed. Please realize, in kindness, this does not happen without a cause. Nothing in this universe happens without a cause.
