

The Dallas Revival

By REV. ALBERT OTT

An education in faith, would be a good name for the preliminary campaign which Dr. Price held in the Full Gospel Tabernacle before moving into the big tent in the Fair Park, Dallas. He came to us almost a stranger, for most of his ministry has been a long way from Dallas, but he has won his way into the hearts of our people and his messages have enlisted them to believe with him for great things from God. At this writing some of the great things are already here.

During the three weeks in the Tabernacle, Dr. Price's ministry was directed largely to the people of our own congregation. He led them step-by-step until when he began to pray for the sick in the tent, there was a strong backing of faith at the very first service and the blessing and power of God were felt in unusual measure.

It has been a privilege indeed to have this man of God with us in our own church, and to have a share with some of the other churches in the large campaign in the tent. The spiritual life of our people is being visibly deepened, and in addition to the number who have been saved and filled with the Holy Spirit and healed, the entire congregation is receiving a new vision of the will and power of the Lord.

We are in the midst of a growing revival spirit and we want to keep Dr. Price with us just as long as possible, for God is richly blessing his ministry in Dallas. We trust that this is just the first of a series of great revivals in the South under his ministry, and we hope that when he comes south again, he will start with another great campaign in Dallas. We can assure him that a host of friends here will follow him in prayer wherever the Lord shall lead him, and we shall always be thankful that Dr. Price came our way.
