

Tommy Hicks, internationally known missionary evangelist again stressed the needs abroad. He called attention to the little country of Hungary, and the injustice of it all. We see how little the U. N. can do. Our only hope is Jesus. We need to be positive. We need to be filled with the Holy Ghost. No matter what country he preached in, Finland, Germany, Russia, the people received the Holy Spirit.

Some preachers are waiting to collect a certain sum before going to the mission fields. If Jesus says "GO" that is all you need. We need to clasp our hands and get the job done. We're yet to see the bloodiest war we've ever seen. When will peace come? When the Prince of Peace comes. "Seek ye first the kingdom of God," for the laborers are few. Again there was a spontaneous move toward God, as Brother Hicks closed the service.
